Hobbies:

Automotive

- Being an avid car enthusiast and expressing a deep understanding of mechanical fundamentals, I conduct service tasks on my own vehicles, wearing my interest proudly.

Design & Computer Aided Design (CAD)

- Having countless hours designing and prototyping products from sketches to tangible items fresh off my 3D printer, I carry extensive experience and interest.

Hardware Development & Programming

- Having an extensive knowledge base of platforms such as the Arduino platform and Expressif hardware, I combine both skillsets to create bespoke hardware for personal projects. With programming knowledge ranging from C++ to HTML/CSS, I have programmed items ranging from robots to my own personal website.

Photography

- Since 2017, I have been an avid photographer, beginning with a phone to moving over to my Canon T6. I shoot a variety of photos from events to automotive and landscape. Being my main form of creative expression, I take pride in my work and interest, often teaching others that find an interest along the way.
